WINS BACK A SHADE

WHEAT HAS A VARIABLE DAY BUT RETIRES STRONG.

Bearish News Starts the Market Weak, Rains in Kansas and Abroad Improving Crop Prospects Materially-Decrease in Visible Supply, However, Proves a Tonic, and Market Stiffens-Provisions Bounce to the Top Notch.

CHICAGO, April 16,-Wheat opened weak and closed strong today with a gain of 3. for May. Favorable crop reports caused weakness and reports of crop Samage the latter strength. A liberal deprease in the visible supply also aided in the recovery. Corn was firm and gained cent. Provisious were very strong and piosed at the top of a fifty cents advance

Wheat got a weak start because of the tign advices were to the effect that showers prevailed in England and a private dis-Aparch from Strasburg, Germany, said that beavy rains were general there and that still remained so. Some rain had fallen in Kanhas and of all the planks in the dry weather platform of the recent short bull campaign, the drought of California alone

campaign, the drought of California alone remained. Even that was jumped upon this morning, a dispatch from New York, received here about the opening, reporting rain in Northern California. The amount of wheat on passage had increased 512,000 hushels and India appeared to have shipped more liberally than of late, Beerbohm's cable gives 320,000 bushels as India's contribution to the quantity affoat. The receipts in the northwest were again. The receipts in the northwest were again liberal. All these matters put together caused a decline in price here of 1 cent per bushel in twenty minutes, compared with Saturday's closing. The business done during the decline was not very heavy and the decline was not very heavy and after the decline trading became quite black, but with indications of returning bonfidence among bolders. May opened with sellers at 59% as against 60% at the with scilers at 30% as against 60% at the close on Saturday. In the next two seconds there was business done at 50% followed by a rally to 50%, and then by a decline to 50%. July, which closed on Saturday worth only 1% to 1% bents more than May, improved to a premium of from 1% to 2 cents in the first half hour. The sentiment of the crowd underwant a complete change on account half hour. The sentiment of the crowd underwent a complete change on account of the considerable decrease in the visible supply and an advance to 60/a60/4 for May and 61% for July was the work of a very few minutes. There was a reaction in May to 59%, but hellers did not offer much. Closing cables hame weak and caused another spell of comparative heaviness here, May dropping again to 59%. After the % cent decline which followed the report of the weak closing cables, there were some more harrowing drought dispatches from California which started the crowd to buying again and the market went higher than before and closed 60% for May.

The corn market was strong after a momentary fit of weakness at the opening. There was no change of moment in previously existing conditions to account for the strength, unless the greater buying disposition of foreign houses in New York could be accepted as warranting more firmness here. The visible supply decreased 1,400,000, and the publication of that fact was the cause of some strength in the middle of the session. The business those was not heavy.

May opened at 38% as against 3% on underwent a complete change on account

fixed to cause a heavy feeling in the oats market, opening values were at one time half a cent under Saturday's last quotations, but at noon had gained & cent over the opening quotation. The market showed a still more steady feeling at the close and prices reacted to where they closed on Saturday.

close and prices, reacted to where they closed on Saturday.

Provisions opened with a bounce of 15 to 20 cents over Saturday's closing rates for pork, 71-2 and 10 cents over for lard and from 5 to 10 cents higher for ribs.

That was only the beginning of a very strong market which remained of that complexion to the close. The strongest phase of the market was prevailing as it closed with everything at the top of the day's range. Pork closed for May at 13 30 and July 13 40, being a net gain of 50 cents

Texaus brought \$3.00@3.50. The bulge was caused by the smallness of the receipts. Very seldom, indeed, do the receipts for Monday fail below 13,000, as was the case today. Everything was picked up long before noon and a good many orders went unfilled. The probabilities are that this advance will bring plenty of cattle later in the week, with what effect upon values remains to be seen.

The hog market was active and unevenly higher. Some sales were no more than 5 cents higher, while the top of the market was 15 cents above the higher figures reached last week, \$5.55 being paid in at least one instance. The receipts were as large as for last Monday, being 26,000 head, but to buyers tney appeared to look cheap at an advance on that day's prices of 30 to 35 cents per 100 pounds. The offering did not need to be very good to bring as much as \$5.35 and the majority of the supply sold at above that figure. From \$5.40 to \$5.50 was paid for perhaps 75 per cent of the 26,000 or 27,000 on sale. A little poor stuff changed hands at \$5.10@5.75 and culls sold at \$3.00 3.45.
